

— PEOPLE ANALYTICS · 1-MONTH INTENSIVE

HR Analytics *Bootcamp*

Turn people data into confident workforce decisions. A one-month, hands-on programme that brings evidence to every HR choice.

DURATION

1 Month

FORMAT

Onsite & Online

FEE

NGN 195,000

— THE PROGRAMME

A sharper lens for Human Resources

The HR Analytics Bootcamp empowers Human Resources professionals with the data skills to make informed workforce decisions. Over one month it bridges HR and data analysis, so you can interpret people data, uncover workforce trends and make evidence-based decisions that align HR with organisational goals.

Data-Lead Africa is a research and training consulting firm working across monitoring & evaluation, data analytics, data science training and strategic consulting. We combine statistics, research methods and technology to turn data into insight, taught by a team of seasoned industry experts.

Who this is for

HR officers

HR managers

Recruiters

People operations

L&D professionals

Aspiring people analysts

— WHY IT MATTERS

From *gut feel* to *evidence*.

People analytics turns HR from a reactive support function into a strategic partner. Instead of relying on assumptions, you use data to spot workforce trends early, predict what is coming, and make recommendations leadership can trust.

THE PEOPLE QUESTIONS YOU WILL ANSWER

Turnover

Retention

Time to Hire

Cost per Hire

Absenteeism

Engagement

Diversity

WHAT YOU WILL WALK AWAY ABLE TO DO

- Clean and prepare messy HR data for analysis
- Build Power BI dashboards for workforce reporting
- Present evidence-based HR recommendations to leadership
- Track and interpret the metrics that drive workforce decisions
- Anticipate attrition and forecast headcount needs

— HOW IT WORKS

Structured, hands-on training

Four ways we take you from learning to doing in a focused month.

Recorded video lessons

High-quality, easy-to-follow lessons you can revisit any time.

Onsite and online

Learn and collaborate with peers, in person or remotely.

Peer-review sessions

Trade perspectives and sharpen your problem-solving.

Real-world case studies

Apply every skill to authentic HR and business problems.

DURATION	FORMAT	INVESTMENT	LEVEL
1 Month	Onsite & Online	NGN 195,000	All HR professionals

— THE CURRICULUM

What you will master

01 Introduction to HR Analytics and Data-Driven HR **FOUNDATIONS**

What people analytics is, why it matters, and how HR moves from gut feel to evidence.

The analytics maturity model, from descriptive to prescriptive / Aligning HR strategy with business goals / Ethics, privacy and fairness in people data

02 HR Data Collection and Cleaning **DATA PREPARATION**

Get reliable, analysis-ready people data out of messy HR systems.

Sourcing data from HRIS, payroll and surveys / Cleaning missing, duplicate and inconsistent records / Structuring workforce data for analysis

03 Key HR Metrics and KPIs **MEASUREMENT**

Measure what actually matters to the workforce and the business.

Turnover, retention and time to hire / Absenteeism, cost per hire and productivity / Engagement, eNPS and diversity metrics

04 Excel and SQL for HR Data **TOOLS**

Analyse and manage people data with the tools on every HR desktop.

Excel formulas, lookups and PivotTables / Summarising and segmenting workforce data / SQL basics for querying HR databases

— THE CURRICULUM, CONTINUED

Predict, apply, deliver

05 Power BI Dashboards for Workforce Reporting **VISUALISATION**

Build dashboards leaders can read at a glance.

Modelling HR data and writing DAX measures / Headcount, attrition and hiring dashboards / Sharing reports for CHROs and managers

06 Predictive Analytics for HR **PREDICTION**

Look ahead: anticipate attrition and plan the workforce you will need.

Introduction to predictive thinking / Attrition and flight-risk modelling / Headcount and workforce forecasting

07 Data-Driven Recruitment, Retention and Performance

APPLIED HR

Apply analytics across the full employee lifecycle.

Improving hiring and quality of hire / Understanding the drivers of retention / Evidence-based performance evaluation

Applied Capstone

Answer a real workforce question end to end, taking raw HR data through to a clear, evidence-based recommendation that you present to complete the programme.

— TOOLS, REQUIREMENTS & ENROLMENT

Everything you need to start

TOOLS YOU WILL USE

Microsoft Excel

PivotTables

Power Query

Power BI

DAX

SQL

Laptop & requirements

Operating system	Windows (recommended)
------------------	-----------------------

Memory (RAM)	8 GB recommended
--------------	------------------
