

Let's code!

1-Month Coding Bootcamp · Kids & Teens

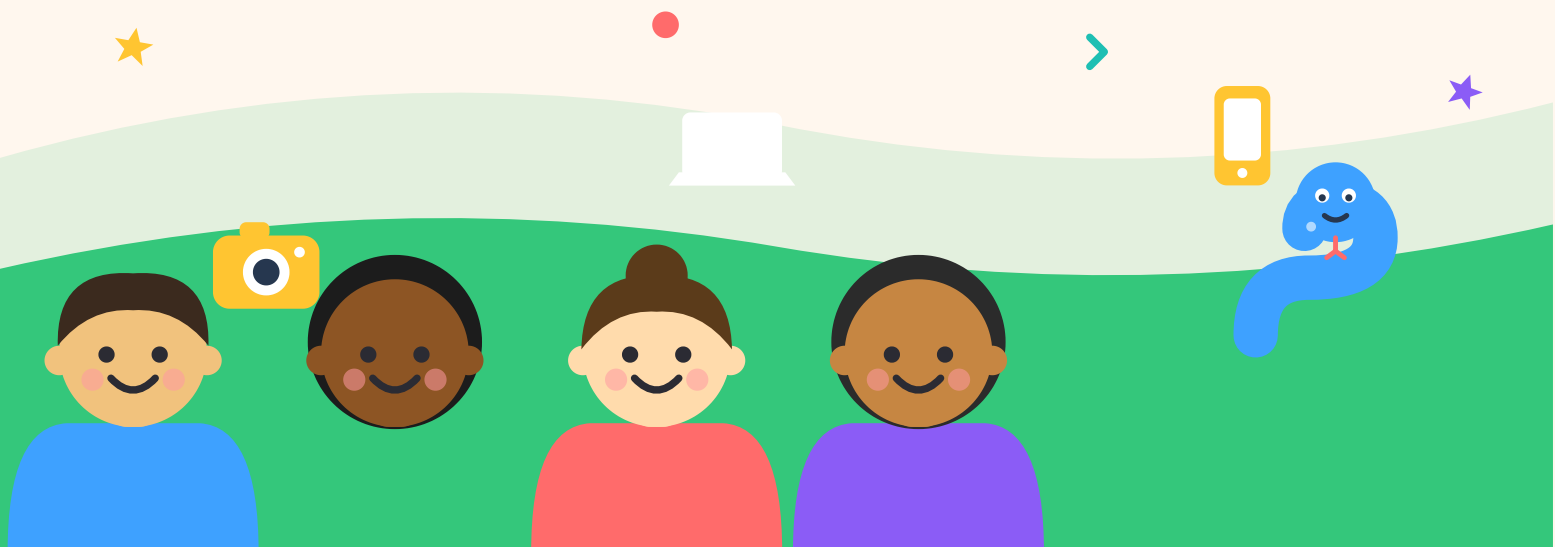

Python Coding for Kids

A playful first month of real coding! Kids write their own Python programs, draw with code and build a mini game, all while having a blast.

1 Month

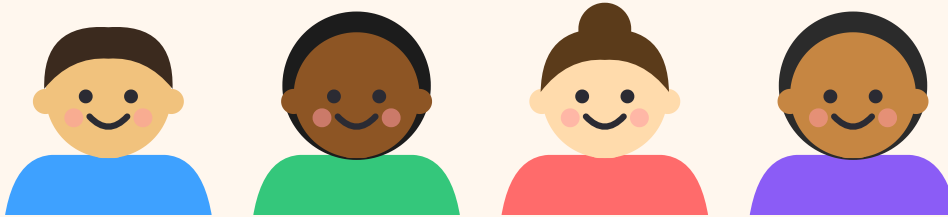

Kids & Teens

NGN 100,000

Their first real programming language

Python is one of the world's most popular programming languages, and it is friendly enough for beginners. In one month, your child goes from their very first line of code to building and sharing a small project, learning to think, solve problems and create like a real programmer.

Who it's for

Kids & teens

Total beginners

Curious problem-solvers

Young game-makers

Future coders

From first line to first game

01

Hello, Code!

Meet Python and write a first program that actually runs.

02

Words & Numbers

Use variables to store words and numbers and talk to the computer.

03

Making Decisions

Teach programs to choose with if-and-else, just like a game.

04

Loops & Turtle Art

Repeat with loops and draw cool shapes with turtle graphics.

05

Functions & Games

Reuse code with functions and build a simple, fun game.

06

Show-and-Tell

Build a mini project and present it to the class.

Why parents love it

Learning that feels like play

Learn by building

Every lesson ends with something that runs, moves or plays.

Beginner friendly

No experience needed. We start from the very beginning.

Onsite & online

Join in person in Abuja or from home, whatever suits your family.

A project to keep

Your child finishes with real code and a project to show off.

DURATION

1 Month

AGES

Kids & teens

FORMAT

Onsite & Online

FEE

NGN 100,000

The fun part

What your child walks away with

- ✓ Write and run real Python code
- ✓ Draw pictures with turtle graphics
- ✓ Solve problems step by step
- ✓ Use variables, loops and functions
- ✓ Build a simple game
- ✓ Think like a programmer

Tools & apps they'll use

<> Python

🐢 Turtle Graphics

👤 Trinket

🎮 Mini games

How to enrol

1

Register

Fill the quick enrolment form for your child.

2

Reserve a seat

Make the one-time payment to hold their place.

3

Start coding

Get the welcome pack and write your first program.

ONE-TIME FEE

NGN 100,000

Enrol now

Ready, set, code!

Registration is open. Give your child a head start with real coding skills this month.
